About Doré Copper

Doré Copper Mining Corp. is a copper-gold explorer and developer in the Chibougamau area of Québec, Canada. Doré Copper has consolidated a large land package in the prolific Lac Doré/Chibougamau mining camp that has produced 1.6 B lbs of copper and 3.2 M oz of gold. In addition, the Company has optioned the high-grade Joe Mann gold mine (production 1.17 M oz at 8.26 g/t Au). The land package includes 12 former producing mines, deposits and resource target areas within a 60-kilometre radius of the Company's 2,700 tpd mill (Copper Rand Mill).

The Company's objective is to create a profitable hub-and-spoke operation with its high-grade copper-gold assets. The Company's current focus is to grow mineral resources and sequentially re-develop the high-grade Corner Bay (Cu-Au), Cedar Bay (Au-Cu), Joe Mann (Au), and Copper Rand (Au-Cu) deposits. The Company's ongoing fully-funded 35,000-metre drilling program for 2020 and early 2021 is expected to lead to an updated mineral resource estimate and a Preliminary Economic Assessment (PEA) in 2021.

To date, the Company has completed 20,000 metres of drilling at both Corner Bay and Cedar Bay with positive results and has started to drill a number of high-grade gold targets at the former Joe Mann mine.
