## NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Stated in Canadian Dollars)  
(Unaudited)

### 1. NATURE OF BUSINESS AND GOING CONCERN

Doré Copper Mining Corp. (the "Corporation" or "Doré"), (formerly AmAuCu Mining Corporation ("AmAuCu")), was incorporated under the laws of Canada on April 11, 2017, and through its 100% owned subsidiary, CBay Minerals Inc. ("CBay") owns an interest in mineral properties located in Chibougamou, Quebec, for the purposes of exploration and evaluation. The Corporation's office is located at 130 King St. W., Suite 1800, Toronto, Ontario.

On December 13, 2019, the Corporation completed a reverse takeover transaction (the "Transaction" or "Qualifying Transaction"), pursuant to which AmAuCu amalgamated with a wholly owned subsidiary of ChaiNode Opportunities Corporation ("ChaiNode"), and was subsequently renamed Doré Copper Mining Corporation (see note 10). The Corporations common shares were subsequently listed on the Toronto Stock Venture Exchange ("TSX-V") and began trading under the symbol "DCMC" on December 17, 2019.

Comparative information for the Corporation is that of AmAuCu.

#### Going concern

The Corporation, being in the exploration stage, is subject to risks and challenges similar to companies in a comparable stage of development. These risks include the challenges of securing adequate capital for exploration, development and operational risks inherent in the mining industry, global economic and metal price volatility and there is no assurance management will be successful in its endeavours. At September 30, 2020, the Corporation has no source of operating cash flows. The Corporation incurred a net loss of \$8,220,530 for the nine months ended September 30, 2020 (September 30, 2019 - \$1,213,235) and has accumulated a deficit of \$18,228,216 since the inception of the Corporation. As at September 30, 2020, the Corporation had working capital of \$2,426,359 (December 31, 2019 – working capital \$6,378,563) and the Corporation's ability to continue as a going concern is dependent upon its ability to raise additional capital to continue the development of its mineral properties. During nine months ended September 30, 2020, the Corporation raised gross proceeds of \$3,121,477 through equity financing activities (nine months ended September 30, 2019 - \$770,000 in proceeds received from a credit facility, and for the year ended December 31, 2019, the Corporation raised gross proceeds of \$9,491,701 through equity financing activities).

The Corporation's continuance as a going concern is dependent upon its ability to obtain adequate financing or to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Corporation will attain a profitable level of operation. These material uncertainties cast significant doubt on the Corporation's ability to continue as a going concern. These financial statements do not include any adjustments to the carrying values of assets and liabilities and the reported expenses and statement of loss and comprehensive loss classification that would be necessary should the Corporation be unable to continue as a going concern. These adjustments could be material.

### 2. SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Presentation

These unaudited condensed consolidated interim financial statements for the three and nine months ended September 30, 2020 have been prepared in accordance with IAS 34 *Interim Financial Reporting*. The condensed consolidated interim financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with the Corporation's annual financial statements as at December 31, 2019.

The unaudited condensed consolidated interim financial statements of the Corporation for the period ended September 30, 2020 were approved and authorized by the Board of Directors on November 19, 2020.

(formerly AmAuCu Mining Corporation)  
(Incorporated under the laws of Canada)

## NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Stated in Canadian Dollars)  
(Unaudited)

The accounting policies applied in the preparation of these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Corporation's audited consolidated financial statements for the year ended December 31, 2019 and as discussed below.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Corporation's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of the Corporation's unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in Note 2 of the Company's audited consolidated financial statements for the year ended December 31, 2019 and as discussed below.

### Basis of consolidation

The Corporation's condensed consolidated interim financial statements consolidate those of its subsidiary. The Corporation's subsidiary is:

	Percentage of ownership	Jurisdiction	Principal activity
CBay Minerals Inc.	100%	Canada	Mineral exploration

All transactions and balances between the Corporation and its subsidiary are eliminated on consolidation, including unrealized gains and losses on transactions between the companies.

### Significant accounting judgements and estimates

In the application of the Corporation's accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

### Significant estimates

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods. Significant estimates include:

- i. the inputs used in accounting for share purchase option expense in the statement of loss and comprehensive loss;
- ii. the inputs used in accounting for value of warrants in the statement of financial position;
- iii. the provision for income taxes which is included in the statements of loss and comprehensive loss and composition of deferred income tax assets and liabilities included in the statement of financial position which have not yet been confirmed by the taxation authorities.

### 3. RECENT EVENTS

#### COVID-19

Since December 31, 2019, the spread of COVID-19 has severely impacted many local economies around the globe. In many countries, including Canada, businesses are being forced to cease or limit operations for long or indefinite periods of time. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions.

The Corporation has been monitoring the COVID-19 outbreak and the potential impact at all of its operations and has put measures in place to ensure the wellness of all of its employees and surrounding communities where the Corporation works while continuing to operate. Currently, fieldwork has resumed on all of our projects, while all corporate personnel travel has been restricted to absolute minimum requirements and employees have been encouraged to work remotely. With respect to our operations or work locations in Quebec, we have implemented the typical control measures for dealing with the outbreak of COVID-19. These include self-screening for symptoms and travel history with possible COVID-19 exposure of any employees, visitors and contractors (site personnel) prior to any travel to or from a site and isolation, where necessary, from the general site population. These cautions and precautions rely on voluntary information and voluntary compliance of those working directly or indirectly for the Corporation. We expect that procedures will continue to evolve according to the World Health Organization and Center for Disease Control guidelines as more becomes known about the virus.

The Corporation has determined that these events are non-adjusting events. Accordingly, the financial position and results of operations as of and for the nine months ended September 30, 2020 have not been adjusted to reflect their impact.

(i) Recoverable taxes include Canadian harmonized sales tax receivable and the Québec sales tax receivable.

(ii) Mining tax credit receivable includes amounts recoverable from Revenu Québec related to the mining tax credits.

### 5. TEMPORARY INVESTMENTS

As at September 30, 2020 the Corporation's subsidiary, CBay, held \$768,583 in a guaranteed investment certificate maturing February 16, 2021 at a yield of 1.80%, and \$20,000 in a guaranteed investment certificates maturing March 2, 2021 yielding 1.10%.

### 6. ASSET ACQUISITION

#### Acquisition of CBay Minerals Inc.

On May 30, 2019 and May 31, 2019, the Corporation entered into a series of transactions with Ocean Partners Investments Limited ("Ocean Partners") and CBay Minerals Inc. to complete the acquisition of all of the outstanding CBay shares. The aggregate amount of \$5,619,920 that the Corporation had incurred to date in exploration expenditures were sufficient for the Corporation to have earned an undivided interest in and to CBay's interest in and to its property, which were exchanged for such number of CBay shares that would represent 28.66% of the outstanding CBay shares, on a fully diluted basis. CBay's beneficial interest in the interests acquired was then transferred to the Corporation. The Corporation then sold its beneficial interest in the interests acquired to CBay in exchange for 19,687 CBay shares, representing 28.66% of the outstanding CBay shares, on a fully diluted basis. Ocean Partners and the Corporation then entered into a purchase and sale agreement pursuant to which Ocean Partners sold all of its CBay shares, representing the remaining 71.34% of the outstanding CBay shares, to the Corporation in exchange for the issuance of 4,500,000 common shares and the issuance of promissory notes in the aggregate amount of \$7,500,000. The obligations of the Corporation under the promissory notes are guaranteed by CBay with such guarantee secured against the property and assets of CBay. Each of the promissory notes bear interest at a rate of 6% per annum, with \$1,000,000 maturing on the commencement of commercial production, \$2,000,000 maturing on the first anniversary of the commencement of commercial production, \$2,000,000 maturing on the second anniversary of the commencement of commercial production, and \$2,500,000 maturing on the third anniversary of the commencement of commercial production.

#### Purchase price allocation

The Corporation has determined that CBay did not meet the definition of a business under IFRS 3, Business Combinations, and as such has been accounted for as an asset acquisition. The cost of an acquisition should be based on the fair value of consideration given, except where the fair value of the consideration given is not clearly evident. In such a case, the fair value of the net assets acquired is used. The promissory notes issued as part of the transaction are considered a financial liability under IFRS 9, and are initially measured at fair value with subsequent measurement at amortised cost. Given the lack of certainty at this time as to whether the Corporation will reach the operational and economic milestones needed to achieve commercial production, and the estimated timeline to do so, the notes currently have nominal or no fair value (see note 10). As a result, the promissory notes have not been included in the purchase consideration below.

The fair value of consideration given, totaling \$5,964,529 has been allocated as follows:

	\$
Cash	54,226
Accounts receivable	60,253
Accounts payable	(80,579)
Mineral property interests	5,930,629
<b>Total net assets to be allocated</b>	<b>5,964,529</b>

### Mineral property acquisitions and agreements

#### Chibougamou, Quebec

##### *Interest in Cedar Bay / Corner Bay and Other properties through acquisition of CBay*

The main assets include the Corner Bay deposit, the Cedar Bay past producing mine, the Copper Rand past producing mine, the Devlin deposit, the Copper Rand mill and tailings management facility. Other deposits include the Lac Doré deposit, and various exploration targets on Portage Island. As a result of the acquisition of CBay, the Corporation has recorded Mineral Property Interest of \$5,930,629 (see Note 2 - Asset Acquisition).

##### *Cornerback Property (included in "Other Properties")*

On September 7, 2017 (the "Effective Date"), the Corporation entered into an Option Agreement (the "Agreement") with VanadiumCorp Resource Inc. ("Vanadium") to acquire up to a 100% interest in the Cornerback property (the "Property") located in Quebec.

Pursuant to the agreement, AmAuCu can acquire an 80% undivided interest in the Property by (the "First Option"):

(a) making payments of an aggregate of \$250,000 to Vanadium as follows:

- i) \$50,000 in cash on Effective Date (paid);
- ii) an additional \$50,000 in cash on or prior to the date that is the 12 months from the Effective Date (paid);
- iii) an additional \$50,000 in cash on or prior to the date that is the 24 months from the Effective Date (paid); and
- iv) an additional \$50,000 in cash on or prior to the date that is the 36 months the Effective Date (paid); and

(b) incurring an aggregate of \$500,000 in expenditures on the Property on or before the date that is 36 months from the Effective Date.

Upon AmAuCu having exercised the First Option and acquired an 80% undivided interest in the Property, free and clear of any encumbrances, the Corporation will have the additional exclusive right and option exercisable at any time prior to September 6, 2021, to acquire an additional 20% undivided interest in the Property by paying \$50,000 in cash to Vanadium on or before September 6, 2021.

### Acquisition of mineral claims

#### Option agreement to acquire Joe Mann property

On January 2, 2020, the Corporation entered into an option agreement to acquire a 100% interest in the Joe Mann gold mine ("Joe Mann") located in Québec. The Corporation entered into an option agreement with the owners of Joe Mann, Ressources Jessie Inc. ("Ressources Jessie") and Legault Metals Inc. ("Legault"), to acquire a 100% interest in Joe Mann on the following terms:

- A cash payment of \$1,000,000 to Ressources Jessie and 400,000 common shares of Doré Copper ("Doré Copper Shares") were issued to Legault at a deemed price of \$1.25 per share on January 2, 2020 (the "Effective Date").
- A cash payment of \$250,000 to Ressources Jessie and \$500,000 in Doré Copper Shares to be issued to Legault on the first anniversary of the Effective Date.

- A cash payment of \$1,000,000 to Ressources Jessie upon completion of 5,000 meters of drilling at Joe Mann or on the earlier of the second anniversary of the Effective Date or 18 months from the commencement of drilling.
- A cash payment of \$500,000 to Ressources Jessie and \$500,000 in Doré Copper Shares to be issued to Legault on the second anniversary of the Effective Date.
- A cash payment of \$1,500,000 to Ressources Jessie and \$1,000,000 in Doré Copper Shares to be issued to Legault on the third anniversary of the Effective Date.
- Spending \$2,500,000 in qualifying exploration expenditures before the third anniversary of the Effective Date.
- A cash payment of \$1,000,000 to Ressources Jessie and \$1,500,000 in Doré Copper Shares to be issued to Legault upon the commencement of commercial production at Joe Mann.
- A 2% net smelter return royalty will be granted to Ressources Jessie and the Corporation will hold the option to buy back 1% for \$2,000,000 and buy back a further 0.5% for \$4,000,000.

2019

In relation to the acquisition of certain mineral claims in Chibougamou, Quebec, on December 13, 2019, the Corporation issued 220,000 common shares at a price of \$1.30, representing a gross value of \$286,000. Included in this agreement is a 2% Net Smelter Return Royalty (the "NSR") granted to the seller, on production from the Mining Claim to be paid at the seller's option either in cash or in kind. The NSR shall be assignable. In respect of this NSR, the Corporation agrees to pay an amount of \$30,000 per year as a Minimum Advance Royalty, commencing in the third year following the acquisition of the Mining Claim by the Corporation and payable on the second anniversary date of the closing of this acquisition and payable for so long as the Corporation or its successor or affiliate owns the Mining Claim. These Minimum Advance Royalty payments shall be a credit against the NSR payable.

### 9. CREDIT FACILITIES

#### Credit facility with Ocean Partners USA Inc.

On November 28, 2018, the Corporation entered into a Loan Agreement with Ocean Partners USA Inc. (the "Lender") whereby the Corporation would have access to a credit facility for funding general working capital purposes up to \$725,000, maturing February 28, 2019 (date of maturity extended indefinitely by mutual agreement). This Loan Agreement was amended February 22, 2019 to increase the credit facility to a total of \$1,130,000; amended May 24, 2019 to increase the credit facility to a total of \$1,500,000; and further amended August 1, 2019 to increase the credit line to a total of \$1,800,000. As of December 12, 2019, the Corporation had been advanced funds totaling \$1,770,667 (December 31, 2018 - \$700,000), which when combined with interest and lenders fees since inception of \$159,443, brought to total owed under the facility to \$1,930,110 (December 31, 2018 - \$730,000). On December 12, 2019, by mutual agreement the total outstanding credit facility to Ocean Partners USA Inc. of \$1,930,110 was settled through the issuance of 1,484,700 common shares. There have been no subsequent proceeds from this credit facility.

#### Short-term working capital facility

On December 6, 2019, the Corporation received a short-term working capital loan from an officer of the Corporation in the amount of \$100,000. This facility was subsequently repaid on December 18, 2019 with interest in the amount of \$395. The facility was a bridge loan to cover working capital needs prior to the closing of the business combination transaction, and bore an interest rate of 12% per annum with no collateral. The interest terms were consistent with other short-term working capital facilities. There have been no subsequent proceeds from this credit facility.

### 10. PROMISSORY NOTES

In relation to the acquisition of CBay, AmAuCu issued promissory notes to Ocean Partners, a related party, in the aggregate amount of \$7,500,000. These promissory notes are considered a financial liability under IFRS 9 and are initially measured at fair value with subsequent measurement at amortised cost. The obligations of the Corporation under the promissory notes are guaranteed by CBay with such guarantee secured against the property and assets of CBay. Each of the promissory notes bear interest at a rate of 6% per annum, with \$1,000,000 maturing on the commencement of commercial production, \$2,000,000 maturing on the first anniversary of the commencement of commercial production, \$2,000,000 maturing on the second anniversary of the commencement of commercial production, and \$2,500,000 maturing on the third anniversary of the commencement of commercial production. The settlement of the obligation, both principal and interest, is contingent upon the timing of commencement of commercial production. Given the lack of certainty at this time as to whether the Corporation will reach the operational and economic milestones needed to achieve commercial production, and the estimated timeline to do so, the notes currently have nominal or no fair value. The Corporation reassesses the amount, timing and probability of future cash flows at each reporting period to determine any required adjustments to the amortised cost balance of \$Nil. As at September 30, 2020, no adjustment has been made.

### 11. REVERSE TAKE-OVER AND AMALGAMATION

On December 13, 2019, AmAuCu completed a business combination transaction with ChaiNode pursuant to which ChaiNode acquired all of the issued and outstanding securities of AmAuCu constituting ChaiNode's Qualifying Transaction (within the meaning of the policies of the TSX Venture Exchange). Prior to the completion of the Qualifying Transaction, ChaiNode effected a consolidation of its outstanding common shares on the basis of one post-consolidation common share for every 10.8 pre-consolidation common shares, and continued under the *Canada Business Corporations Act*.

The Qualifying Transaction was completed by way of a three-cornered amalgamation (the "Amalgamation") involving AmAuCu, ChaiNode and a wholly-owned subsidiary of ChaiNode ("Subco"), pursuant to which, among other things, (i) AmAuCu amalgamated with Subco, incorporated for the purposes of the Amalgamation, pursuant to the provisions of the *Canada Business Corporations Act*, and (ii) all of the outstanding AmAuCu common shares immediately prior to the Qualifying Transaction were cancelled and, in consideration therefore, the holders thereof received post-consolidation common shares of ChaiNode ("ChaiNode Shares") on the basis of one ChaiNode Share for each AmAuCu common share (the "Exchange Ratio").

Immediately following completion of the Amalgamation, the corporation resulting from the Amalgamation completed a vertical short form amalgamation with AmAuCu's wholly-owned subsidiary, CBAY Minerals Inc., to form a new corporation which will continue under the name "CBAY Minerals Inc." as a wholly-owned subsidiary of ChaiNode.

On the business day immediately prior to the completion of the Amalgamation, each of the 3,861,983 Subscription Receipts issued by AmAuCu on November 4, 2019 (the "Private Placement") (see note 12) were automatically converted, without payment of additional consideration or any further action by the holders thereof, into one Unit in accordance with their terms. Each Unit was comprised of one Common Share and one-half of one Warrant.

At the effective time of the Amalgamation, among other things, outstanding AmAuCu common shares (including those AmAuCu common shares comprising the Units issued upon the automatic conversion of the Subscription Receipts) and Warrants were exchanged for ChaiNode Shares and common share purchase warrants of ChaiNode ("ChaiNode Replacement Warrants"), respectively, on the basis of the Exchange Ratio. Each ChaiNode Replacement Warrant entitles the holder thereof to acquire one ChaiNode Share at a price of \$1.95 per ChaiNode Share at any time on or before November 4, 2021. In addition, at the effective time of the Amalgamation, 188,260 broker warrants of AmAuCu issued in connection with the Private Placement were

exchanged for broker warrants of ChaiNode ("ChaiNode Replacement Broker Warrants") on the basis of the Exchange Ratio. Each ChaiNode Replacement Broker Warrant entitles the holder thereof to acquire one ChaiNode Share at a price of \$1.30 per ChaiNode Share at any time on or before December 13, 2021. Additionally, ChaiNode stock option holders were issued replacement options on the same consolidation basis as the common shares and under the same terms of the original grant. The pre-Transaction options, totaling 900,000 immediately prior to the Transaction, were subject to adjustment based on an exchange ratio of 10.8 pre-transaction options to 1 Resulting Issuer option (the "Doré Exchange Ratio"), amounting to a total of 83,333 Resulting Issuer options, with an expiry date of December 13, 2020, and an exercise price of \$1.08.

The substance of the Transaction is a reverse acquisition of a non-operating company. The Transaction does not constitute a business acquisition as ChaiNode does not meet the definition of a business under IFRS 3. As a result, the Transaction is accounted for as a capital transaction with AmAuCu being identified as the accounting acquirer and the equity consideration being measured at fair value. Upon completion of the Transaction, ChaiNode changed its name to Doré Copper Mining Corporation

The fair value of the equity consideration paid as part of the Transaction has been allocated as follows:

### Consideration transferred:

Common shares issued	(1)	\$	1,083,333

- (a) In 2018, AmAuCu entered into an agreement for investor relations services and agreed to issue common shares as compensation. On March 14, 2019, the Corporation issued 142,857 shares at a price of \$0.70 per share, for a value of \$100,000.
- (b) On May 31, 2019, AmAuCu issued 4,500,000 common shares at a price of \$1.30 for a total value of \$5,850,000 in relation to the acquisition of CBay Minerals Inc.
- (c) Prior to completion of the Qualifying Transaction, AmAuCu completed a brokered private placement of 3,861,983 Subscription Receipts at a price of \$1.30 per AmAuCu subscription Receipt for gross proceeds of \$5,020,578. Each AmAuCu Subscription Receipt was automatically converted into one unit comprised of one AmAuCu share and one-half of one common share purchase warrant of AmAuCu. Following the completion of the RTO, the holders of these warrants were issued share purchase warrants of Doré under the same terms.

Each Doré Warrant entitles the holder to acquire one Doré Share at a price of \$1.95 per share at any time on or before November 4, 2021.

In consideration for their services in connection with the AmAuCu Private Placement, AmAuCu paid the agents a cash commission equal to 7.0% of the aggregate gross proceeds from the sale of AmAuCu subscription Receipts (or 3.5% of aggregate gross proceeds from the sale of AmAuCu Subscription Receipts to purchasers identified by AmAuCu to the agents). As additional consideration, the agents were granted non-transferable broker warrants of AmAuCu equal to 7.0% of the aggregate gross proceeds from the sale of AmAuCu subscription Receipts (or 3.5% of aggregate gross proceeds from the sale of

AmAuCu Subscription Receipts to purchasers identified by AmAuCu to the agents). Following the RTO, the broker warrants were converted to broker warrants of Doré and each broker warrant entitles the holder to acquire one Doré common share at a price of \$1.30 per share at any time on or before December 13, 2021. AmAuCu paid a cash commission of \$633,892 in connection with the deal. The fair value of the broker warrants issued as commission was \$188,260.

The net proceeds of the brokered private placement was \$4,386,686. The entire amount of the proceeds have been allocated to the common shares.

- (d) In consideration for the settlement of the credit facility with Ocean Partners Investments Ltd., totaling \$1,930,110, the Corporation issued 1,484,700 common shares valued at \$1.30 per share (see note 9).
- (e) In consideration for services provided and in lieu of receipt of cash, certain vendors have settled outstanding obligations through the receipt of 25,600 common shares, at a price of \$1.30, totaling \$33,280.
- (f) In relation to the acquisition of certain mineral claims, the Corporation issued 220,000 common shares at a price of \$1.30, representing a gross value of \$286,000.
- (g) Included in the private placement were 61,538 shares valued at \$80,000 issued for consulting services.
- (h) The estimated fair value of the 833,333 common shares to be issued to previous Doré shareholders is \$1,083,333. This estimated fair value of \$1.30 per common share is based on the value of common shares issued by AmAuCu in private placements with third parties.
- (i) On December 30, 2019, the Corporation completed a brokered private placement (the "Offering"), pursuant to which the Corporation sold an aggregate of 2,865,585 common shares in the capital of the Corporation that qualify as "flow-through shares" within the meaning of subsection 66(15) of the Income Tax Act (Canada) and, in relation to common shares issued to residents in Québec, section 359.1 of the Taxation Act (Québec) (collectively, the "Flow-Through Shares"), for aggregate gross proceeds of \$4,471,123. The Flow-Through Shares were issued in two tranches with the first tranche consisting of 1,696,985 Flow-Through Shares issued to residents of Québec at a price of \$1.65 per Flow-Through Share for aggregate gross proceeds of \$2,800,025 and the second tranche consisting of 1,168,600 Flow-Through Shares issued to residents outside of Québec at a price of \$1.43 per Flow-Through Share for aggregate gross proceeds of \$1,671,098. A deferred flow-through premium liability of \$769,235 was recognized on completion of the Offering based on the difference between the market value of the common shares and the share issue price.

In consideration for its services in connection with the closing of the final tranche of the Offering, the Corporation paid the Agent a cash commission equal to 7% of the aggregate gross proceeds from the sale of Flow-Through Shares, and a reduced cash commission equal to 3.5% to 4.25% of the aggregate gross proceeds from the sale of Flow-Through Shares to certain purchasers. As additional consideration for its services in connection with the closing of the final tranche of the Offering, the Corporation issued the Agent non-transferable broker warrants of the Corporation ("Broker Warrants") equal to 7% of the aggregate number of Flow-Through Shares issued. Each Broker Warrant is exercisable to acquire one common share in the capital of the Corporation at an exercise price of \$1.43 per share expiring between December 23, 2021 and December 30, 2021. The Corporation paid cash commissions of \$322,859, and other fees of \$85,341, totaling \$408,200. The fair value of the broker warrants issued was \$98,478.

On December 30, 2019, the Corporation entered into back-to-back agreements with its subsidiary, CBay whereby CBay subscribed for common shares that are "flow-through shares" (as defined in the *Income Tax Act* (Canada)) of the Corporation for an aggregate purchase price of \$4,471,123. CBay then agreed to incur and renounce CEE equal to \$4,471,123 to Doré on or before December 31, 2020.

- (k) On August 25, 2020, the Corporation completed a "best efforts" brokered private placement (the "Offering"), pursuant to which the Corporation sold an aggregate of 2,662,072 common shares in the capital of the Corporation that will qualify as "flow-through shares" within the meaning of subsection 66(15) of the *Income Tax Act* (Canada) and, in relation to common shares issued to residents in Québec, section 359.1 of the *Taxation Act* (Québec) (collectively, the "Flow-Through Shares"), for aggregate gross proceeds of \$3,121,476.64, including partial exercise of the agents' option. The Flow-Through Shares were issued in two tranches with the first tranche consisting of 1,749,450 Flow-Through Shares issued to residents of Québec at a price of \$1.20 per Flow-Through Share for aggregate gross proceeds of \$2,099,340 and the second tranche consisting of 912,622 Flow-Through Shares issued to residents outside of Québec at a price of \$1.12 per Flow-Through Share for aggregate gross proceeds of \$1,022,136.64.

In consideration for their services in connection with the Offering, the Corporation paid the Agents a cash commission equal to 6% of the aggregate gross proceeds from the sale of Flow-Through Shares, and a reduced cash commission equal to 3% of the aggregate gross proceeds from the sale of Flow-Through Shares to certain purchasers. As additional consideration for their services in connection with the closing of the Offering, the Corporation issued the Agents non-transferable broker warrants of the Corporation ("Broker Warrants") equal to 6% of the aggregate number of Flow-Through Shares issued. Each Broker Warrant is exercisable to acquire one common share in the capital of the Corporation at an exercise price of \$1.12 per share until August 25, 2022.

In addition, Leede Jones Gable Inc. acted as a finder (the "Finder") in connection with the Offering. In consideration for acting as a finder in connection with the Offering, the Corporation paid the Finder a cash commission equal to 3% of the aggregate gross proceeds from the sale of Flow-Through Shares arranged by the Finder and issued the Finder Broker Warrants equal to 3% of the aggregate number of Flow-Through Shares issued to purchasers arranged by the Finder on the same terms as the Broker Warrants issued to the Agents. The cash commission payable and the Broker Warrants issuable to the Agents on the sale of Flow-Through Shares arranged by the Finder was reduced accordingly.

The Corporation applies the fair value method of accounting for all stock based compensation awards and accordingly, \$65,892 and \$154,632 was recorded as compensation for the three and nine months ended September 30, 2020, respectively (2019 - \$31,826 and \$101,419).

\* On completion of the RTO, the stock options were considered to be cancelled and re-issued for shares of the resulting issuer. This is a modification of a share-based payment under IFRS 2. The fair value of the options is determined on the date of the transaction, and compared to the fair value on the date immediately prior to the transaction. If there is excess fair value, the excess must be immediately recognized in share-based payment expense in accordance to the remaining vesting period. For instruments that have already vested, the additional expense is recognized immediately. For options still vesting, the additional expense is recognized over the remaining vesting period. A one-time expense in the amount of \$361,842 was recorded in the period ending December 31, 2019 as share-based payment expense.

- No options were exercised during the period.
- The weighted average remaining life of the outstanding stock options is 2.01 years (2019 - 2.56 years).
- The Corporation currently estimates the forfeiture rate to be nil.

For purposes of the options granted, the fair value of each option was estimated on the date of grant using the Black-Scholes option pricing model, with the following assumptions:

#### Flow-through renunciation

On December 23, 2019 and December 30, 2019, the Corporation completed a flow-through financing to raise \$4,471,123. The Corporation renounced 100% of the flow-through raised in 2019 to investors as at December 31, 2019. The Corporation had until February 1, 2020 to incur expenditures before monthly interest charges began to accrue on unspent funds. Interest charges incurred by the Corporation as a result of this income tax legislation are charged to income in the period incurred. Of the \$4,471,123 in flow-through financing raised in 2019, the Corporation has incurred \$4,471,123 in exploration expenses, and thus fulfilling its obligation in relation to these renounced expenditures.

On August 25, 2020, the Corporation completed a flow-through financing to raise \$3,121,477. The Corporation intends to renounce 100% of the flow-through raised in 2020 to investors as at December 31, 2020. The Corporation has until February 1, 2021 to incur expenditures before monthly interest charges began to accrue on unspent funds. Interest charges incurred by the Corporation as a result of this income tax legislation are charged to income in the period incurred. Of the \$3,121,477 in flow-through financing raised in 2019, the Corporation has incurred \$590,444 in exploration expenses, and thus must incur expenses of \$2,531,033 by December 31, 2020, to fulfil its obligation in relation to these renounced expenditures.

### 16. FINANCIAL INSTRUMENTS AND RELATED RISKS

The Corporation's operations include the acquisition and exploration of mineral properties in Canada. The Corporation examines the various financial risks to which it is exposed and assesses the impact and likelihood of occurrence. These risks may include credit risk, liquidity risk, currency risk, interest rate risk and other risks. Where material, these risks are reviewed and monitored by the Board of Directors.

#### [a] Credit risk

Counterparty credit risk is the risk that the financial benefits of contracts with a specific counterparty will be lost if a counterparty defaults on its obligations under the contract. This includes any cash amounts owed to the Corporation by those counterparties, less any amounts owed to the counterparty by the Corporation where a legal right of off-set exists and also includes the fair values of contracts with individual counterparties which are recorded in the financial statements.

- i) Trade credit risk  
The Corporation is in the exploration stage and has not yet commenced commercial production or sales. Therefore, the Corporation is not exposed to significant credit risk and overall the Corporation's credit risk has not changed significantly from the prior year.
- ii) Cash and cash equivalents  
In order to manage credit and liquidity risk the Corporation invests only in highly rated investment grade instruments that have maturities of three months or less and are cashable at any time. Limits are also established based on the type of investment, the counterparty and the credit rate.

iii) Derivative financial instruments

As at September 30, 2020, the Corporation has no derivative financial instruments. It may in the future enter into derivative financial instruments in order to manage credit risk, it will only enter into derivative financial instruments with highly rated investment grade counterparties.

[b] Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation manages liquidity risk through the management of its capital structure.

Accounts payable and accrued liabilities are due within the current operating period.

[c] Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk that the Corporation will realize a significant loss as a result of a decline in the fair market value is limited as the Corporation holds all of its funds in cash and guaranteed investment certificates.

The Corporation does not invest in derivatives to mitigate these risks.

IFRS 13 establishes a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
<b>Assets</b>				
Investments	-	788,583	-	<b>788,583</b>

### 17. MANAGEMENT OF CAPITAL RISK

The Corporation manages its common shares and stock options as capital, the balance of which is \$25,093,411 at September 30, 2020 (December 31, 2019 - \$22,104,193). The Corporation's objectives when managing capital are to safeguard the Corporation's ability to continue as a going-concern in order to pursue the exploration of its mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Corporation manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Corporation may attempt to issue new shares and, acquire or dispose of assets or acquire new debt.
