NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Stated in Canadian Dollars)
(Unaudited)

For the three and six months ending June 30, 2021 and 2020

1. NATURE OF BUSINESS AND GOING CONCERN

Doré Copper Mining Corp. (the "Corporation" or "Doré"), (formerly AmAuCu Mining Corporation ("AmAuCu")), was incorporated under the laws of Canada on April 11, 2017, and through its 100% owned subsidiary, CBay Minerals Inc. ("CBay") owns an interest in mineral properties located in Chibogamou, Quebec, for the purposes of exploration and evaluation. The Corporation's office is located at 130 King St. W., Suite 1800, Toronto, Ontario, M5X 1E3.

On December 13, 2019, the Corporation completed a reverse takeover transaction (the "Transaction" or "Qualifying Transaction"), pursuant to which AmAuCu amalgamated with a wholly owned subsidiary of ChaiNode Opportunities Corporation ("ChaiNode"), and was subsequently renamed Doré Copper Mining Corporation (see note 10). The Corporations common shares were subsequently listed on the Toronto Stock Venture Exchange ("TSX-V") and began trading under the symbol "DCMC" on December 17, 2019.

The Corporation, being in the exploration stage, is subject to risks and challenges similar to companies in a comparable stage of development. These risks include the challenges of securing adequate capital for exploration, development and operational risks inherent in the mining industry, global economic and metal price volatility and there is no assurance management will be successful in its endeavours. At June 30, 2021, the Corporation has no source of operating cash flows. The Corporation incurred a net loss of $3,711,715 for the period ended June 30, 2021 (June 30, 2020 - $1,665,373) and has accumulated a deficit of $26,367,906 since the inception of the Corporation. As at June 30, 2021, the Corporation had working capital of $20,422,108 (December 31, 2020 – working capital $4,239,737) and the Corporation's ability to continue is dependent upon its ability to raise additional capital to continue the development of its mineral properties. During the six month period ended June 30, 2021, the Corporation raised gross proceeds of $27,674,732 (2020 - $nil) through private placements of shares and warrants and the exercise of stock options.

Recent events

COVID-19
Since December 31, 2019, the spread of COVID-19 has severely impacted many local economies around the globe. In many countries, including Canada, businesses were forced to cease or limit operations for long or indefinite periods of time. Global stock markets also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions.

The Corporation has adapted its operations to mitigate the impact of the COVID-19 outbreak and has put measures in place to ensure the wellness of all of its employees and surrounding communities where the Corporation works while continuing to operate. Currently, fieldwork has resumed on all of our projects, while all corporate personnel travel is still restricted to absolute minimum requirements and employees have been encouraged to work remotely where possible. With respect to our operations on work locations in Quebec, we have implemented the typical control measures for dealing with the outbreak of COVID-19. These include self-screening for symptoms and travel history with possible COVID-19 exposure of any employees, visitors and contractors (site personnel) prior to any travel to or from a site and isolation, where necessary, from the general site population. These cautions and precautions rely on voluntary information and voluntary compliance of those working directly or indirectly for the Corporation. We expect that procedures will continue to evolve according to the World Health Organization and Center for Disease Control guidelines as more becomes known about the virus.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These unaudited condensed consolidated interim financial statements for the three and six months ended June 30, 2021 have been prepared in accordance with IAS 34 *Interim Financial Reporting*. The condensed consolidated interim financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with the Corporation's annual financial statements as at December 31, 2020.

The unaudited condensed consolidated interim financial statements of the Corporation for the period ended June 30, 2021 were approved and authorized by the Board of Directors on August 19, 2021.

The accounting policies applied in the preparation of these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Corporation's audited consolidated financial statements for the year ended December 31, 2020 and as discussed below.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Corporation's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of the Corporation's unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in Note 2 of the Company's audited consolidated financial statements for the year ended December 31, 2020 and as discussed below.

Basis of consolidation

The Corporation's condensed consolidated interim financial statements consolidate those of its 100% owned subsidiary, CBay Minerals Inc. All transactions and balances between the Corporation and its subsidiary are eliminated on consolidation, including unrealized gains and losses on transactions between the companies.

Significant accounting judgements and estimates

In the application of the Corporation’s accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

<u>Significant estimates</u>

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods. Significant estimates include:

i. the inputs used in accounting for share purchase option expense in the statement of loss and comprehensive loss;

(Stated in Canadian Dollars)

ii. the inputs used in accounting for value of warrants in the statement of financial position;

3. AMOUNTS RECEIVABLE

	June 30, 2021 **$**	December 31, 2020 $
Recoverable taxes (i)	**837,822**	335,330
Mining tax credits (ii)	**-**	147,754
	837,822	483,084

(i) Recoverable taxes include Canadian harmonized sales tax receivable and the Québec sales tax receivable.
(ii) Mining tax credit receivable includes amounts recoverable from Revenu Québec related to the mining tax credits.

4. TEMPORARY INVESTMENTS

As at June 30, 2021 the Corporation's subsidiary, CBay, held $783,785 in a guaranteed investment certificate maturing March 11, 2022 at a yield of 0.33%, and $20,000 in a guaranteed investment certificates maturing March 2, 2022 yielding 0.10%.

5. ASSET ACQUISITION

Acquisition of CBay Minerals Inc.

On May 30, 2019 and May 31, 2019, the Corporation entered into a series of transactions with Ocean Partners Investments Limited ("Ocean Partners") and CBay Minerals Inc. to complete the acquisition of all of the outstanding CBay shares in exchange for the issuance of 4,500,000 common shares and the issuance of promissory notes in the aggregate amount of $7,500,000.

Purchase price allocation

The Corporation has determined that CBay did not meet the definition of a business under IFRS 3, Business Combinations, and as such has been accounted for as an asset acquisition. The cost of an acquisition should be based on the fair value of consideration given, except where the fair value of the consideration given is not clearly evident. In such a case, the fair value of the net assets acquired is used. The promissory notes issued as part of the transaction are considered a financial liability under IFRS 9, and are initially measured at fair value with subsequent measurement at amortised cost. Given the lack of certainty at this time as to whether the Corporation will reach the operational and economic milestones needed to achieve commercial production, and the estimated timeline to do so, the notes currently have nominal or no fair value (see note 8). As a result, the promissory notes have not been included in the purchase consideration below.

(Stated in Canadian Dollars)

The fair value of consideration given, totaling $5,964,529 has been allocated as follows:

	$
Cash	54,226
Accounts receivable	60,253
Accounts payable	(80,579)
Mineral property interests	5,930,629

8. PROMISSORY NOTES

In relation to the acquisition of CBay, AmAuCu issued promissory notes to Ocean Partners, a related party, in the aggregate amount of $7,500,000, plus accrued interest. These promissory notes are considered a financial liability under IFRS 9 and are initially measured at fair value with subsequent measurement at amortised cost. The obligations of the Corporation under the promissory notes are guaranteed by CBay with such guarantee secured against the property and assets of CBay. Each of the promissory notes bear interest at a rate of 6% per annum, with $1,000,000 maturing on the commencement of commercial production, $2,000,000 maturing on the first anniversary of the commencement of commercial production, $2,000,000 maturing on the second anniversary of the commencement of commercial production, and $2,500,000 maturing on the third anniversary of the commencement of commercial production. The settlement of the obligation, both principal and interest, is contingent upon the timing of commencement of commercial production. Given the lack of certainty at this time as to whether the Corporation will reach the operational and economic milestones needed to achieve commercial production, and the estimated timeline to do so, the notes currently have nominal or no fair value. The accrued interest as at June 30, 2021 would be valued at $937,500 (December 31, 2020 - $712,500). reassesses the amount, timing and probability of future cash flows at each reporting period to determine any required adjustments to the amortised cost balance of $Nil. As at June 30, 2021, no adjustment has been made.

9. REVERSE TAKE-OVER AND AMALGAMATION

On December 13, 2019, AmAuCu completed a business combination transaction with ChaiNode pursuant to which ChaiNode acquired all of the issued and outstanding securities of AmAuCu constituting ChaiNode's Qualifying Transaction (within the meaning of the policies of the TSX Venture Exchange). Prior to the completion of the Qualifying Transaction, ChaiNode effected a consolidation of its outstanding common shares on the basis of one post-consolidation common share for every 10.8 pre-consolidation common shares, and continued under the *Canada Business Corporations Act*.

The Qualifying Transaction was completed by way of a three-cornered amalgamation (the "Amalgamation") involving AmAuCu, ChaiNode and a wholly-owned subsidiary of ChaiNode ("Subco"), pursuant to which, among other things, (i) AmAuCu amalgamated with Subco, incorporated for the purposes of the Amalgamation, pursuant to the provisions of the *Canada Business Corporations Act*, and (ii) all of the outstanding AmAuCu common shares immediately prior to the Qualifying Transaction were cancelled and, in consideration therefore, the holders thereof received post-consolidation common shares of ChaiNode ("ChaiNode Shares") on the basis of one ChaiNode Share for each AmAuCu common share (the "Exchange Ratio").

Immediately following completion of the Amalgamation, the corporation resulting from the Amalgamation completed a vertical short form amalgamation with AmAuCu's wholly-owned subsidiary, CBAY Minerals Inc., to form a new corporation which will continue under the name "CBAY Minerals Inc." as a wholly-owned subsidiary of ChaiNode.

On the business day immediately prior to the completion of the Amalgamation, each of the 3,861,983 Subscription Receipts issued by AmAuCu on November 4, 2019 (the "Private Placement") (see note 10) were automatically converted, without payment of additional consideration or any further action by the holders thereof, into one Unit in accordance with their terms. Each Unit was comprised of one Common Share and one-half of one Warrant.

At the effective time of the Amalgamation, among other things, outstanding AmAuCu common shares (including those AmAuCu common shares comprising the Units issued upon the automatic conversion of the Subscription Receipts) and Warrants were exchanged for ChaiNode Shares and common share purchase warrants of ChaiNode ("ChaiNode Replacement Warrants"), respectively, on the basis of the Exchange Ratio. Each ChaiNode Replacement Warrant entitles the holder thereof to acquire one ChaiNode Share at a price of $1.95 per ChaiNode Share at any time on or before November 4, 2021. In addition, at the effective time of the Amalgamation, 188,260 broker warrants of AmAuCu issued in connection with the Private Placement were exchanged for broker warrants of ChaiNode ("ChaiNode Replacement Broker Warrants") on the basis of the Exchange Ratio. Each ChaiNode Replacement Broker Warrant entitles the holder thereof to acquire one ChaiNode Share at a price of $1.30 per ChaiNode Share at any time on or before December 13, 2021. Additionally, ChaiNode stock option holders were issued replacement options on the same consolidation basis as the common shares and under the same terms of the original grant. The pre-Transaction options, totaling 900,000 immediately prior to the Transaction, were subject to adjustment based on an exchange ratio of 10.8 pre-transaction options to 1 Resulting Issuer option (the "Doré Exchange Ratio"), amounting to a total of 83,33 Resulting Issuer options, with an expiry date of December 13, 2020, and an exercise price of $1.08.

The substance of the Transaction is a reverse acquisition of a non-operating company. The Transaction does not constitute a business acquisition as ChaiNode does not meet the definition of a business under IFRS 3. As a result, the Transaction is accounted for as a capital transaction with AmAuCu being identified as the accounting acquirer and the equity consideration being measured at fair value. Upon completion of the Transaction, ChaiNode changed its name to Doré Copper Mining Corporation
